TDC Meeting Number: TDC184 Date: 7 November 2013
 Query / Dispute No(s): For Settlement Day(s) and Time Period(s):
 DA303/092 01-August-11 to 31-August-11

The Trading Dispute Committee Findings are:

Excessively large erroneous Annualised Advances (AAs) and Estimates of Annual Consumption (EACs) have entered Settlement, affecting the Non-Half Hourly (NHH) market. The TDC has authorised the performance of Post-Final Settlement Runs to correct this Settlement Error for the above period.

The TDC has reviewed the Settlement Error arising within the affected GSP Groups and has previously determined that Post-Final Settlement Runs will not be performed in North Scotland GSP Group from Settlement Day 01 April 2005 and in South Scotland GSP Group from Settlement Day 01 July 2007.

The table below summarises the decisions made by the TDC at its November meeting with respect to Trading Dispute DA303. The decisions available to the TDC are explained below.

Authorised	The TDC authorised Post-Final Settlement Runs. This determination is subject to further review if the TDC becomes aware of data changes post the TDC meeting. This decision will be made ex-committee.
Rejected	The TDC determined that Post-Final Settlements Runs will not be performed. This determination is subject to further review if the TDC becomes aware of data changes post the TDC meeting. This decision will be made ex-committee.
Not in process	The TDC has determined that Post-Final Settlement Runs will not be performed in this GSP Group as the level of error is within the acceptable threshold.

GSP Group	August 2011
South Scotland	Not in process
North Scotland	Not in process
