

Assessment Consultation

CP1402

About this document:

This is an Assessment Consultation document, which provides details of the background, solution, potential impacts and costs associated with CP1402 'Aligning the Deliverables in the Service Description for Profile Administration with the Data Analyst contract'. This document is for information only, to be used in line with the Consultation Response form, to which this document is attached.

1. Why change?

Background

Section 5 'Deliverables' of the Service Description for Profile Administration (PrA) describes the process for each Settlement Year, by which the PrA delivers various Technical Product Deliverables¹ on the Delivery Date(s) as defined in the Data Analyst plan.

What is the issue?

The Service Description for Profile Administration needs updating to reflect all the reporting deliverables from the ELEXON contracted Data Analyst (Meniscus)² and match those defined in the aforementioned contract, as the Service Description does not currently cover all of the deliverables currently produced.

ELEXON raised Change Proposal (CP) 1402 'Aligning the Deliverables in the Service Description for Profile Administration with the Data Analyst contract' on 9 October 2013 to address this issue.

2. Solution

For consistency purposes, this CP seeks to amend section 5 of the Service Description for PrA to align the list of Document Deliverables with those produced under the Data Analyst contract.

Question 1

Do you agree with the proposed change?

¹ The deliverables of the PrA Service (i.e. the Regression Coefficients, Profile Coefficients, GAAC Values, Friendly Format Technical Product Deliverables and Comparison Report).

Assessment Consultation

3. Impacts and costs

Potential central impacts and costs

ELEXON estimated costs and potential impacts		
Document Changes	System Changes/Impacts	Total
Service Description for Profile Administration	No system changes or impacts identified.	1 man day equating to £240

Potential participant impacts and costs

We do not foresee any participant impacts associated with CP1402.

Question 2

Is your organisation impacted? If yes, please answer the following:

Question 3

How is your organisation impacted?

Question 4

What are the associated costs on your organisation to implement this change?

4. Implementation approach

CP1402 is targeted for implementation on 26 June 2014 as part of the June 2014 BSC Systems Release.

Question 5

Do you agree with the implementation approach? If not, why?

Question 6

Do you have any other comments?
