## FLUX TYAKO LED Street Light

The FLUX TYAKO Street Light is a stylish and powerful streetlight designed to offer easy installation and maintenance. Its innovative structure allows a tool-free maintenance approach; both the power supply and LED module can be replaced without tools, simply by clicking the easy-to-open clips on either side. The high-output CREE LEDs offer excellent lumens per watt (over 110), and the light can be specified to suit any road type and width.

### Features:

- 6 KV lightning proof protection.
