

CIRCULAR

TYPE & NUMBER ELEXON Circular EL02700

Date 6 September 2017

To BSC Parties

From BSC Operations

Purpose For information

Issue affecting National Grid's Market Operation Data Interface System (MODIS)

What is happening?

National Grid has informed us that they have been experiencing an issue affecting access to the MODIS (Market Operation Data Interface System).

MODIS sends Loss of Load Probability (LoLP), De-rated Margin (DRM), REMIT and Transparency data from National Grid to the Balancing Mechanism Reporting Service (BMRS).

How will I be impacted?

This issue has prevented users from submitting ETR/REMIT data into MODIS via FTP and subsequently this data being sent to the BMRS for publication. In turn, this data is not being sent to the ENTSO-e Transparency Platform.

Users are still able to submit ETR/REMIT data using the MODIS user interface.

Participants who submit REMIT data via the ELEXON Portal are not impacted and National Grid's Balancing Mechanism (BM) systems are unaffected by this issue.

What do I need to do?

You don't need to do anything. However, if you have any questions please contact bscservicedesk@cgi.com.
