

HEADLINE REPORT

MEETING NAME	Unmetered Supplies User Group
Meeting number	122
Date of meeting	1 March 2018
Purpose of paper	Information
Classification	Public
Synopsis	This report sets out the headlines of the most recent UMSUG meeting.

OPEN SESSION

1. BSCP520 and OID redlining for Action 121/07 (EV 'trickle' charge points in lamp posts) – UMSUG122/01

1.1 The Office for Low Emission Vehicles (OLEV) and Regulatory Delivery at the Department for Business, Energy & Industrial Strategy (BEIS) have confirmed that electric vehicle (EV) 'trickle' charge points in lamp posts can be considered for an unmetered supply. This paper presented ELEXON's proposed redlined changes to BSC Procedure (BSCP) 520 and the Operational Information Document (OID), along with its proposed next steps.

The UMSUG:

- a) **AGREED** amendments to the OID and BSCP520 redlining, which will be issued to the UMSUG by correspondence for a final check;
- b) **AGREED** that ELEXON will take the OID changes to the Supplier Volume Allocation Group (SVG) for approval at its meeting on 27 March 2018;
- c) **NOTED** that ELEXON will process and test Measured Central Management System (mCMS) applications in parallel, but will only seek the SVG's approval of these once the OID changes are approved; and
- d) **AGREED** that ELEXON will raise a Change Proposal (CP) to progress the BSCP520 changes, but that this does not need to be approved or implemented before the SVG approves any mCMS for Settlement.

2. BSCP520 redlining for Action 121/01 (other minor changes from UMSUG121) – UMSUG122/02

2.1 This paper presented other draft redlined changes to BSCP520, to discharge UMSUG Action 121/01. ELEXON invited the UMSUG to agree the final redlining for progression through a CP.

2.2 The UMSUG:

- a) **AGREED** the proposed redlined changes without amendment;
- b) **AGREED** that ELEXON will raise a CP to progress these; and
- c) **AGREED** that these changes should be combined into a single CP with those covered in UMSUG paper 122/01.

3. OID redlining for Action 121/06 (equipment with variable loads) – UMSUG122/03

3.1 This paper presented draft redlined changes to the OID to discharge Action 121/06. It invited the UMSUG to recommend these changes to the SVG for approval.

HEADLINE REPORT

3.2 The UMSUG:

- a) **DEFERRED** consideration of this agenda item to a future meeting, due to the adverse weather.

4. Clarification of Generic LED Lighting Charge Code process – UMSUG122/04

4.1 This paper identified areas of the Generic LED Lighting Charge Code process that manufacturers believe are currently vague and could be better clarified. ELEXON invited the UMSUG to discuss these and agree any clarifications that it believes are necessary.

4.2 The UMSUG:

- a) **DEFERRED** consideration of this agenda item to a future meeting, due to the adverse weather.

5. OID changes to Standard Inventory Format (Action 121/02) – Verbal update

5.1 ELEXON noted that it had received a further review comment from an UMSUG member since submitting these changes to the SVG. The SVG therefore rejected the changes at its meeting on 27 February 2018, to enable further UMSUG discussion. ELEXON invited the UMSUG to agree any necessary amendments.

5.2 The UMSUG:

- a) **AGREED** amendments to the OID redlining, which will be issued to the UMSUG by correspondence for a final check; and
- b) **AGREED** that ELEXON will take the final changes to the SVG for approval at its meeting on 27 March 2018.
