

## TEMPORARY SPEED LIMIT SIGNS

**Our roads don't always have a fixed speed limit, sometimes we know that at specific times we have a higher level of traffic and pedestrians so we require additional traffic calming measures. A classic example of this is the area around schools at the beginning and end of the school day.**

Messagemaker Displays have developed a **Temporary Speed Limit Sign (TSLs)**, to inform drivers of reduced speed limits, at certain times of the day. It is the ideal solution to increase the safety of pedestrians and cyclists.

With inbuilt 3G technology, the sign can be programmed remotely to display a reduced speed limit at specific times of the day. It can also be remotely programmed with schedules so it only displays on certain days of the week, or to school term times.

Our TSLs is a highly visible, proven traffic calming solution. Our team can work with you to identify the best location of your signs as well as provide expert advice for your project.

Developed in the UK our TSLs is cost effective solution for speed traffic management in communities.

*Call the team now to start planning your TSLs project – 01737 774 738*

## Key Points:

- Provides traffic calming during pre scheduled periods
- Pre-scheduling of annual timetables
- Increases safety of pedestrians & cyclists
- Fully automatic operation
- Highly visible

## Features:

- Remote schedule programming via 3G
- GPS clock synch for accurate activation
- High intensity LED displays
- Multi level auto dim
- EN12966 Certificated for UK highways use
- Symbols to TSRGD Dia 670
- Data collection with remote download via 3G
- Compliant for litigation
- Narrow viewing angle prevents lightspill

## The Technical bit:

- 450/600mm roundel options
- 20/30/40MPH versions or hybrid
- EN12966 Certificated
- 1Khz Refresh rate for ANPR Cameras
- 3G Modem communications
- GPS clock synch
- Post mounting rails
- Vehicle detection RADAR for data collection
- Fully weatherproof
- Operational lifetime > 11 Year
- Optional flashing wig wags

## About Messagemaker

Messagemaker manufactures and distributes a wide range of standard and custom LED display solutions. With over 20 years of experience in digital signage, our range includes displays that are designed for both indoor and outdoor applications, in either single, tri, or full colour RGB.
