

BSC RELEASE CIRCULAR – FEBRUARY 2019 RELEASE

Date	15 January 2019
To	CVA and SVA Release Circular distribution
From	ELEXON Project Delivery team
Purpose	This circular invites BSC participants to review changes to BSC Configurable Items to correct omissions from the approved set of documents amended for P344 as part of the February 2019 BSC Release.

Further review of BSC Configurable Items amended for the February 2019 BSC Release

What is the purpose of this Circular?

This circular invites the Balancing and Settlement Code (BSC) Parties and other interested parties to review and provide comments on changes to BSC Configurable Items (CIs) required to correct omissions from the set of BSC CIs approved for Approved Modification P344 '[Project TERRE implementation into GB market arrangements](#)' which will become effective on 28 February 2019 as part of the February 2019 BSC Release.

Background

We issued the BSC Configurable Items (CIs) amended for P344 for industry review via two Release Circulars; the first batch of BSC CIs was issued on [25 October 2018](#) and the second batch was issued on [2 November 2018](#).

The Panel approved all of the BSC CIs amended for P344 at its special meeting ([Panel 284C/01](#)) on 28 November 2018.

However, during the process of reviewing the consolidated versions of the BSC CIs amended for the February 2019 Release, which also includes Approved Modification [P359 'Mechanised process for GC/DC declarations'](#) and approved Change Proposal [CP1510 'Allow the online management of registrations, Market Entry and Market Exit'](#), we identified some omissions from the approved set of BSC CIs for P344:

- [SVA Data Catalogue Volume 1 Data Interfaces](#): did not include four new data interfaces included in [Section 3.2A of BSCP508 'Supplier Volume Allocation Agent'](#); and
- [SVA Data Catalogue Volume 2 Data Items](#): did not include the new data items included in the four new data flows.

We have taken the opportunity to correct some other minor errors at the same time.

What BSC Configurable Items do I need to review?

The tables below lists the BSC Configurable Items amended for P344. Please click on the link to review the changes

Configurable Item	Current Version	Version Issued for Review	Approving Committee
SVA Data Catalogue Volume 1: Data Interfaces	47.0	SVA Data Catalogue Vol 1 Draft Extract for P344 v0.2	SVG
SVA Data Catalogue Volume 2: Data Items	36.0	SVA Data Catalogue Vol 2 Draft Extract for P344 v0.2	SVG

BSC RELEASE CIRCULAR – FEBRUARY 2019 RELEASE

What do I need to do?

Please return your review comments to Releases@elexon.co.uk, using the attached review form, by **17:00 GMT on Monday, 28 January 2019**.

Are there changes to BSC Systems?

No

Who will be impacted?

There are no new obligations on BSC Parties – just clarifications to the BSC CIs.

What will happen after the review completes?

ELEXON will consider all review comments received and, where appropriate, make further changes to the document(s). ELEXON will discuss any comments with the relevant reviewer where we believe it is not appropriate to implement the requested changes.

Once comments have been addressed, we will take the documents (including any revisions) to the Supplier Volume Allocation Group (SVG) meeting in February 2019 for approval.

When will the BSC Configurable Items become effective?

If so approved, the BSC Configurable Items amended for P344 will become effective on **28 February 2019**.

Please refer to [February 2019 Release](#) page of the ELEXON website for further details. We will publish consolidated versions of all other BSC CIs amended for the February 2019 Release on the Release page of the ELEXON Website by the end of January 2019 and will update this with the SVA Data Catalogue Volumes 1 & 2 once they have been approved.

If you have any queries about the Release, please contact Adey Bolaji on 020 7380 4225 or email releases@elexon.co.uk.

If you have any queries about this circular, please email Releases@elexon.co.uk
